NOTES

1. **TWO BOX RULE** - Please note that the Washington Utilities and Transportation Commission prefers that operators of construction or demolition sites where recyclable materials are generated and transported for recycling provides a separate container for non-recyclable material that is collected by a certified hauler. Customer should maintain a separate container for non-recyclable material that is collected by a certified hauler.
2. Demolition waste is acceptable only when from a known site and accompanied by a Hazardous Materials Survey/ Clean Air / Abatement report.
3. We do not accept any materials that are regulated by state or federal environmental or hazardous substance laws.
4. Pre-consumer recyclables are acceptable only when received under pre-approved, written agreement.
